“And Caleb stilled the people before Moses, and said, Let us go up at once, and possess it; for we are well able to overcome it.” Numbers 13:30

Enough Is Enough!!

Turn the Oregon Legislature Around!

A simple commitment on your part may be the key to victory.

Does your vote matter? Consider this. We just lived through one of the **worst legislative sessions in Oregon history**. Maybe the worst. *And we actually could have stopped the bleeding with just 319 votes.*

Here's just part of what we could have prevented:

- Free abortions for all, even illegals, while live births have big deductibles.
- Increased tax burdens on already sky high medical costs.
- Teacher layoffs in spite of record school funding, because the Dems won't address, let alone fix, an out of control PERS (Public Employee Retirement System).
- Oregon becoming the worst sanctuary state in the nation.
- And they're not over. Even now, the Dem controlled Legislature is ramping up for a HUGE carbon tax in 2018, with a resulting slush fund for their progressive cronies.

**It's time to turn the Oregon Legislature around. And the good news is that we can do it!**

A lot of people think Oregon is a progressive state, period, and has been so for a long time. **That's just not true.**

The **facts** are:

- There have been fourteen biennial regular sessions of the Oregon Legislature since 1991. Of these **only five saw Democrat control** of both House and Senate. Five saw Republican control! The remaining four had divided control.
- **In only five of the past fourteen sessions have Democrats controlled the Oregon House, while Republicans controlled the House in eight of those Sessions.** Control was split 30-30 in one session.

Don't let anyone take your hope by saying victory is impossible, leading to disengagement or leaving the state.

It is true that the last three sessions Dems controlled both the Oregon House and Senate. But there is no reason to think this is the norm. History clearly says it isn't! **Throughout the 90s, the Republican Party controlled both the Senate and House.**

The Dems currently control the Senate 17-13. Sounds significant. But if we pick up just **two more Senate seats in 2018, Dem control is stymied, and the progressive agenda will grind to a halt.** Fifteen of the thirty Senate seats are up for grabs in 2018, and eleven of these seats are Democrat seats, meaning **the Dems are more vulnerable to losing seats and control.**

One more reason for hope. In the 2016 elections, two of the Senate seats went to Democrats with very slim margins, of 287 votes in one and 349 votes in the other. If we had been able to flip just 144 votes in one district and 175 in another, most of the disastrous outcomes listed above would not have happened.

We can do it! We can turn the Oregon Legislature around!

We need to **STOP** the progressives in the Legislature! This is a two-part exercise. The first is electing better candidates next year. The second is pressuring them to roll back the nonsense currently coming out of Salem, and stop the rot.

We are strategically targeting specific races in the 2018 election. But we will need funds to win these seats and turn around the Legislature. You've got less than 30 days left to use your free political action tax credit to help stop the Oregon Legislature. If you pay taxes in Oregon, the first \$100 per married couple (\$50 per single) you give to a PAC like PEAPAC **costs you NOTHING!**

This **free political donation tax credit** is the most important untapped resource to win the war and stop the progressives. Over 2 million Oregonians file tax returns each year. But less than 90,000 use the political action tax credit. That's less than 5 people out of 100! And many of those who do use it are union members supporting the Dems who have caused such havoc in Oregon. **YOU can be the balance!** PLEASE use your free tax credit, and get your friends to use it too! This is the FREE key to turning the Legislature around - tax credit dollars and properly targeted strategic races. We're ready to do our part if you'll do yours.

Here's a challenge. Will you commit to talking to just five people, encouraging them to use their political action tax credit? If we don't make use of this gift that the Lord has given us, can we really complain?

Enough is enough in Oregon. Please help us stop the rot. Please consider sending us a check in the enclosed envelope, or use paypal:
